ICONIC DESIGN

When designing the Hubb, our team wanted to create an urban Mono stroller that could be expanded to a Duo without compromises. This resulted in the distinctive shape of the Hubb base. Building the configurations on the horizontal axis allows the Hubb to be strong, balanced and leave an extremely narrow footprint (57 cm), even as a Duo.

HUBB DUO STROLLER WITHOUT COMPROMISE

Meet the Hubb Duo, the comfortable two-seater without compromises. It's an extremely narrow, highly manoeuvrable and completely modular urban stroller. In any configuration, the Hubb Duo allows you to take two children around the city, effortlessly and comfortably. It comes with two full-size seats, but still manoeuvres easily through narrow passages. So, no matter what your plans are, with the Quinny Hubb Duo you're ready for anything.
